

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/apm-21-3232	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	In particular, data related to PCT and bloodstream infections will be shared, and we also found an association between the rate of decline in PCT at day 5 and good outcomes, which has rarely been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One years within the publication date, since the diagnostic and monitoring tools may be updated over time.
7	To whom will you share the data?	ICU specialists or clinicians interested in PCT and bloodstream infection research
8	For what type of analysis or purpose?	To evaluate the application value of PCT in patients with sepsis
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: mise169@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
