

PRISMA 2020 Checklist

Section/topic	Item No	Checklist item	Reported on Page Number/Line Number	Reported on Section/Paragraph
TITLE				
Title	1	Identify the report as a systematic review.	page1/line3-4	title
ABSTRACT				
Abstract	2	See the PRISMA 2020 for Abstracts checklist (Table 2).	page2/line39-62	abstract
INTRODUCTION				
Rationale	3	Describe the rationale for the review in the context of existing knowledge.	page3-4/line69-114	introduction/paragraph1-3
Objectives	4	Provide an explicit statement of the objective(s) or question(s) the review addresses.	page4/line115-123	introduction/paragraph4
METHODS				
Eligibility criteria	5	Specify the inclusion and exclusion criteria for the review and how studies were grouped for the syntheses.	page5/line138-153	methods/paragraph2-3
Information sources	6	Specify all databases, registers, websites, organisations, reference lists and other sources searched or consulted to identify studies. Specify the date when each source was last searched or consulted.	page4-5/line128-134	methods/paragraph1
Search strategy	7	Present the full search strategies for all databases, registers and websites, including any filters and limits used.	page4-5/line128-134	methods/paragraph1
Selection process	8	Specify the methods used to decide whether a study met the inclusion criteria of the review, including how many reviewers screened each record and each report retrieved, whether they worked independently, and if applicable, details of automation tools used in the process.	page5/line157-162	methods/paragraph3
Data collection process	9	Specify the methods used to collect data from reports, including how many reviewers collected data from each report, whether they worked independently, any processes for obtaining or confirming data from study investigators, and if applicable, details of automation tools used in the process.	page5/line157-162	methods/paragraph3
Data items	10a	List and define all outcomes for which data were sought. Specify whether all results that were compatible with each outcome domain in each study were sought (e.g. for all measures, time points, analyses), and if not, the methods used to decide which results to collect.	page6/line166-173	methods/paragraph4
	10b	List and define all other variables for which data were sought (e.g. participant and intervention characteristics, funding sources). Describe any assumptions made about any missing or unclear information.	page6/line166-173	methods/paragraph4

Study risk of bias assessment	11	Specify the methods used to assess risk of bias in the included studies, including details of the tool(s) used, how many reviewers assessed each study and whether they worked independently, and if applicable, details of automation tools used in the process.	page6/li ne177–185	net hods/par agr aph5
Effect measures	12	Specify for each outcome the effect measure(s) (e.g. risk ratio, mean difference) used in the synthesis or presentation of results.	page6–7/li i ne189–203	net hods/par agr aph6
Synthesis methods	13a	Describe the processes used to decide which studies were eligible for each synthesis.	page6–7/li i ne189–203	net hods/par agr aph6
	13b	Describe any methods required to prepare the data for presentation or synthesis, such as handling of missing summary statistics, or data conversions.	page6–7/li i ne189–203	net hods/par agr aph6
	13c	Describe any methods used to tabulate or visually display results of individual studies and syntheses.	page6–7/li i ne189–203	net hods/par agr aph6
	13d	Describe any methods used to synthesize results and provide a rationale for the choice(s). If meta-analysis was performed, describe the model(s), method(s) to identify the presence and extent of statistical heterogeneity, and software package(s) used.	page7/li i ne207–208	net hods/par agr aph7
	13e	Describe any methods used to explore possible causes of heterogeneity among study results.	page6–7/li i ne189–203	net hods/par agr aph6
	13f	Describe any sensitivity analyses conducted to assess robustness of the synthesized results.	page6–7/li i ne189–203	net hods/par agr aph6
Reporting bias assessment	14	Describe any methods used to assess risk of bias due to missing results in a synthesis (arising from reporting biases).	page6–7/li i ne189–203	net hods/par agr aph6
Certainty assessment	15	Describe any methods used to assess certainty (or confidence) in the body of evidence for an outcome.	page6–7/li i ne189–203	net hods/par agr aph6
RESULTS				
Study selection	16a	Describe the results of the search and selection process, from the number of records identified in the search to the number of studies included in the review, ideally using a flow diagram.	page7/li i ne213–219	resul ts/par agr aph1, fi g ure1
	16b	Cite studies that met many but not all inclusion criteria ('near-misses') and explain why they were excluded.	page7/li i ne213–219	results/paragraph1
Study characteristics	17	Cite each included study and present its characteristics.	page7/li i ne219–220	resul ts/par agr aph1/t ab le1
Risk of bias in studies	18	Present assessments of risk of bias for each included study.	page7/li i ne224–229	resul ts/par agr aph2–3, fi g ure2–3
Results of individual studies	19	For all outcomes, present, for each study: (a) summary statistics for each group (where appropriate) and (b) an effect estimate and its precision (e.g. confidence/credible interval), ideally using structured tables or plots.	page8/li i ne233–253	resul ts/par agr aph4, 6/fi g ure4, 6

Results of syntheses	20a	For each synthesis, briefly summarise the characteristics and risk of bias among contributing studies.	page8/line233–253	results/paragraph4, 6
	20b	Present results of all statistical syntheses conducted. If meta-analysis was done, present for each the summary estimate and its precision (e.g. confidence/credible interval) and measures of statistical heterogeneity. If comparing groups, describe the direction of the effect.	page8/line233–253	results/paragraph4, 6/figure4, 6
	20c	Present results of all investigations of possible causes of heterogeneity among study results.	page8/line239–253	results/paragraph5, 7
	20d	Present results of all sensitivity analyses conducted to assess the robustness of the synthesized results.	page8/line239–253	results/paragraph5, 7
Reporting biases	21	Present assessments of risk of bias due to missing results (arising from reporting biases) for each synthesis assessed.	N/A	N/A
Certainty of evidence	22	Present assessments of certainty (or confidence) in the body of evidence for each outcome assessed.	page8/line233–253	results/paragraph4–6/figure4–6
DISCUSSION				
Discussion	23a	Provide a general interpretation of the results in the context of other evidence.	page8–9/line257–290	discussion/paragraph1–4
	23b	Discuss any limitations of the evidence included in the review.	page9/line294–297	conclusion/paragraph1
	23c	Discuss any limitations of the review processes used.	page9/line294–297	conclusion/paragraph1
	23d	Discuss implications of the results for practice, policy, and future research.	page9/line294–297	conclusion/paragraph1
OTHER INFORMATION				
Registration and protocol	24a	Provide registration information for the review, including register name and registration number, or state that the review was not registered.	N/A	N/A
	24b	Indicate where the review protocol can be accessed, or state that a protocol was not prepared.	N/A	N/A
	24c	Describe and explain any amendments to information provided at registration or in the protocol.	N/A	N/A
Support	25	Describe sources of financial or non-financial support for the review, and the role of the funders or sponsors in the review.	page10/line300	funding
Competing interests	26	Declare any competing interests of review authors.	page10/line303	conflicts of interest
Availability of data, code and other materials	27	Report which of the following are publicly available and where they can be found: template data collection forms; data extracted from included studies; data used for all analyses; analytic code; any other materials used in the review.	N/A	N/A

Table 2 PRISMA 2020 for Abstracts checklist

Section/topic	Item No	Checklist item	Reported on Page Number/Line Number	Reported on Section/Paragraph
TITLE				
Title	1	Identify the report as a systematic review.	page1/line3–4	title
BACKGROUND				
Objectives	2	Provide an explicit statement of the main objective(s) or question(s) the review addresses.	page2/line39–45	abstract/background
METHODS				
Eligibility criteria	3	Specify the inclusion and exclusion criteria for the review.	page2/line46–49	abstract/methods
Information sources	4	Specify the information sources (e.g. databases, registers) used to identify studies and the date when each was last searched.	N/A	N/A
Risk of bias	5	Specify the methods used to assess risk of bias in the included studies.	N/A	N/A
Synthesis of results	6	Specify the methods used to present and synthesize results.	page2/line49–50	abstract/methods
RESULTS				
Included studies	7	Give the total number of included studies and participants and summarise relevant characteristics of studies.	page2/line51–52	abstract/results
Synthesis of results	8	Present results for main outcomes, preferably indicating the number of included studies and participants for each. If meta-analysis was done, report the summary estimate and confidence/credible interval. If comparing groups, indicate the direction of the effect (i.e. which group is favoured).	page2/line52–55	abstract/results
DISCUSSION				
Limitations of evidence	9	Provide a brief summary of the limitations of the evidence included in the review (e.g. study risk of bias, inconsistency and imprecision).	page2/line56–59	abstract/discussion
Interpretation	10	Provide a general interpretation of the results and important implications.	page2/line56–59	abstract/discussion
OTHER				
Funding	11	Specify the primary source of funding for the review.	page10/line300	funding
Registration	12	Provide the register name and registration number.	N/A	N/A
