

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/apm-21-3635">https://dx.doi.org/10.21037/apm-21-3635</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Biological data related to intramedullary fixation and extramedullary fixation, as well as basic clinical data of patients included in this study.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The basic clinical data of the patients in this study were included in the research plan and statistical analysis plan.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists.
8	For what type of analysis or purpose?	For analysis to evaluate the effect of intramedullary fixation and extramedullary fixation on unstable intertrochanteric fractures.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 13904170917@sina.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
