Erratum to: *Ann Palliat Med* 2021;10:11785-97

This article (1) titled “Fu’s subcutaneous needling versus massage for chronic non-specific low-back pain: a randomized controlled clinical trial” (*Ann Palliat Med* 2021;10:11785-97; doi: [10.21037/apm-21-2986](https://doi.org/10.21037/apm-21-2986)), unfortunately contained a mistake on page 11790 in the second paragraph of the results section. Namely, the sentence “The proportion of male patients in the FSN group was 57.7%” should be corrected as “The proportion of male patients in the FSN group was 50%”. The authors confirm that this mistake does not affect the result and conclusion of the article.
