

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/apm-21-3909	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes. However, in order to share the data collected for our study, we need to get another approval from the Institutional Review Board.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Individual participant data that underlie the results reported in this article, after deidentification
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	If requested, study protocol, opt out form, and clinical study report will also be shared.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated overtime.
7	To whom will you share the data?	Medical professionals involved in palliative medicine.
8	For what type of analysis or purpose?	For polypharmacy in palliative medicine
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: Masahiko Sumitani, sumitanim-ane@h.u-tokyo.ac.jp
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
