

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/apm-21-2824	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data in particular will be shared, and the age specific mortalities and survival time for patients with pneumoconiosis in each stage, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, and questionnaire for pneumoconiosis patients will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Respiratory physicians and occupational hygiene experts who are interested in studies of pneumoconiosis.
8	For what type of analysis or purpose?	For analysis to protect patients and prolong the life of patients with pneumoconiosis.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: sxpstar@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
