

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/apm-22-352">https://dx.doi.org/10.21037/apm-22-352</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We will share relevant data such as the distribution of pathogenic bacteria in patients with diabetic foot infection and the evaluation of therapeutic indicators.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication data.
7	To whom will you share the data?	Endocrinologist or general surgeon or other scholar interested in the treatment of diabetic foot disease.
8	For what type of analysis or purpose?	To evaluate the effect of systemic combined with local anti-infective therapy on wound repair in patients with diabetic foot.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the share data: 54918709@qq.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
