

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/aoj-22-15	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	NA.
3	What data in particular will be shared?	The surgical outcomes of aged female patients with non-periprosthetic distal femur fractures treated with a locking plate
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Orthopedic surgeons who are interested in studies of aged female patients with non-periprosthetic distal femur fractures.
8	For what type of analysis or purpose?	Try to improve the surgical outcomes of aged female patients with non-periprosthetic distal femur fractures.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: jjaliu@rockets.utoledo.edu
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
