

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/jeccm-21-74	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes. (Sharing of the raw patient data will be done upon the approval of NorthShore Data Governance Committee)
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Survival analysis and study endpoints (primary endpoints) will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol and statistical analysis plan can be shared upon request.
5	When will data availability begin?	The data availability will begin from the publication date.
6	When will data availability end?	The data availability will end two years after the publication.
7	To whom will you share the data?	The data will be shared with critical care and emergency providers.
8	For what type of analysis or purpose?	To evaluate the effects of intravenous thiamine on patients with sepsis or septic shock.
9	How or where can the data/documents be obtained?	Emails requests can be sent to <a href="mailto:yelena.sahakian@my.rfums.org">yelena.sahakian@my.rfums.org</a> email address.
10	Any other restrictions?	Data requests will be assessed and positive responses for data sharing and the requested data will be provided on a case-by-case basis.
