

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/aes-21-27	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Rosettes area measurement data will be shared. Our data are from BLAB/C mice, but if the measurement method and protocol get harmonized and standardized, the data can be used for the comparison with other species.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Animal study protocol and image capturing and analyzing methods are all shared in the paper.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, the measuring method will be updated over time.
7	To whom will you share the data?	Researchers in the field of retina degeneration, especially using sodium iodate model system.
8	For what type of analysis or purpose?	For analyses of translational studies such as drug efficacy test or updating/harmonized protocols.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the data: gungil@korea.ac.kr; sooyoung10.syk@gmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
