

## PRISMA 2020 Checklist

Section/topic	Item No	Checklist item	Reported on Page Number/Line Number	Reported on Section/Paragraph
<b>TITLE</b>				
Title	1	Identify the report as a systematic review.	Page 1/line 1	Title
<b>ABSTRACT</b>				
Abstract	2	See the PRISMA 2020 for Abstracts checklist (Table 2).	Page 2/line 27	Abstract
<b>INTRODUCTION</b>				
Rationale	3	Describe the rationale for the review in the context of existing knowledge.	Page 4/line 62	Introduction/paragraph 1
Objectives	4	Provide an explicit statement of the objective(s) or question(s) the review addresses.	Page 4/line 62	Introduction/paragraph 1
<b>METHODS</b>				
Eligibility criteria	5	Specify the inclusion and exclusion criteria for the review and how studies were grouped for the syntheses.	Page 4/line 73	Methods/paragraph 1
Information sources	6	Specify all databases, registers, websites, organisations, reference lists and other sources searched or consulted to identify studies. Specify the date when each source was last searched or consulted.	Page 4/line 78	Methods/paragraph 1
Search strategy	7	Present the full search strategies for all databases, registers and websites, including any filters and limits used.	Page 4/line 80	Methods/paragraph 1
Selection process	8	Specify the methods used to decide whether a study met the inclusion criteria of the review, including how many reviewers screened each record and each report retrieved, whether they worked independently, and if applicable, details of automation tools used in the process.	Page 4/line 80	Methods/paragraph 1
Data collection process	9	Specify the methods used to collect data from reports, including how many reviewers collected data from each report, whether they worked independently, any processes for obtaining or confirming data from study investigators, and if applicable, details of automation tools used in the process.	Page 4/line 89	Methods/paragraph 1
Data items	10a	List and define all outcomes for which data were sought. Specify whether all results that were compatible with each outcome domain in each study were sought (e.g. for all measures, time points, analyses), and if not, the methods used to decide which results to collect.	Page 4/line 74	Methods/pragraph 1
	10b	List and define all other variables for which data were sought (e.g. participant and intervention characteristics, funding sources). Describe any assumptions made about any missing or unclear information.	Page 4/line 74	Methods/paragraph 1

Study risk of bias assessment	11	Specify the methods used to assess risk of bias in the included studies, including details of the tool(s) used, how many reviewers assessed each study and whether they worked independently, and if applicable, details of automation tools used in the process.	Page 4/line 81	Methods/paragraph 1
Effect measures	12	Specify for each outcome the effect measure(s) (e.g. risk ratio, mean difference) used in the synthesis or presentation of results.	Page 4/ line 85	Methods/paragraph 1
Synthesis methods	13a	Describe the processes used to decide which studies were eligible for each synthesis.	Page 4/line 80	Methods/paragraph 1
	13b	Describe any methods required to prepare the data for presentation or synthesis, such as handling of missing summary statistics, or data conversions.	Page 4/line 75	Methods/paragraph 1
	13c	Describe any methods used to tabulate or visually display results of individual studies and syntheses.	Page 21/line 510	Discussion/paragraph 1
	13d	Describe any methods used to synthesize results and provide a rationale for the choice(s). If meta-analysis was performed, describe the model(s), method(s) to identify the presence and extent of statistical heterogeneity, and software package(s) used.	Page 23/line 542	Figure 1
	13e	Describe any methods used to explore possible causes of heterogeneity among study results.	Page 22/line 538	Discussion/paragraph 3
	13f	Describe any sensitivity analyses conducted to assess robustness of the synthesized results.	Page 22/line 539	Discussion/paragraph 3
Reporting bias assessment	14	Describe any methods used to assess risk of bias due to missing results in a synthesis (arising from reporting biases).	Page 22/line 539	Discussion/paragraph 3
Certainty assessment	15	Describe any methods used to assess certainty (or confidence) in the body of evidence for an outcome.	Page 22/ line 539	Discussion/paragraph 3
<b>RESULTS</b>				
Study selection	16a	Describe the results of the search and selection process, from the number of records identified in the search to the number of studies included in the review, ideally using a flow diagram.	Page 25/line 542	Figure 1
	16b	Cite studies that met many but not all inclusion criteria ('near-misses') and explain why they were excluded.	Page 25/line 542	Figure 1
Study characteristics	17	Cite each included study and present its characteristics.	Page 25/line 542	Figure 1
Risk of bias in studies	18	Present assessments of risk of bias for each included study.	Page 25/line 542	Figure 1
Results of individual studies	19	For all outcomes, present, for each study: (a) summary statistics for each group (where appropriate) and (b) an effect estimate and its precision (e.g. confidence/credible interval), ideally using structured tables or plots.	Page 25/line 531	Figure 1

Results of syntheses	20a	For each synthesis, briefly summarise the characteristics and risk of bias among contributing studies.	Page 25/line 542	Figure 1
	20b	Present results of all statistical syntheses conducted. If meta-analysis was done, present for each the summary estimate and its precision (e.g. confidence/credible interval) and measures of statistical heterogeneity. If comparing groups, describe the direction of the effect.	Page 22/line 540	Discussion/paragraph 3
	20c	Present results of all investigations of possible causes of heterogeneity among study results.	Page 22/line 539	Discussion/paragraph 3
	20d	Present results of all sensitivity analyses conducted to assess the robustness of the synthesized results.	Page 22/line 539	Discussion/paragraph 3
Reporting biases	21	Present assessments of risk of bias due to missing results (arising from reporting biases) for each synthesis assessed.	Page 22/line 539	Discussion/paragraph 3
Certainty of evidence	22	Present assessments of certainty (or confidence) in the body of evidence for each outcome assessed.	Page 22/line 540	Discussion/paragraph 3
<b>DISCUSSION</b>				
Discussion	23a	Provide a general interpretation of the results in the context of other evidence.	Page 21/line 508	Discussion/paragraph 1
	23b	Discuss any limitations of the evidence included in the review.	Page 22/line 531	Discussion/paragraph 3
	23c	Discuss any limitations of the review processes used.	Page 22/line 531	Discussion/paragraph 3
	23d	Discuss implications of the results for practice, policy, and future research.	Page 21/line 511	Discussion/paragraph 1
<b>OTHER INFORMATION</b>				
Registration and protocol	24a	Provide registration information for the review, including register name and registration number, or state that the review was not registered.	Page 35/line 947	Footnote/paragraph 1
	24b	Indicate where the review protocol can be accessed, or state that a protocol was not prepared.	Page 35/line 948	Footnote/paragraph 1
	24c	Describe and explain any amendments to information provided at registration or in the protocol.	Page 5/line 99	Methods/paragraph 2
Support	25	Describe sources of financial or non-financial support for the review, and the role of the funders or sponsors in the review.	Page 27/line 589	Funding/paragraph 1
Competing interests	26	Declare any competing interests of review authors.	Page 27/line 286	Declaration of competing interests/paragraph 1
Availability of data, code and other materials	27	Report which of the following are publicly available and where they can be found: template data collection forms; data extracted from included studies; data used for all analyses; analytic code; any other materials used in the review.	Page 35/line 948	Footnote/paragraph 1

**Table 2 PRISMA 2020 for Abstracts checklist**

Section/topic	Item No	Checklist item	Reported on Page Number/Line Number	Reported on Section/Paragraph
<b>TITLE</b>				
Title	1	Identify the report as a systematic review.	Page 2/line 35	Title
<b>BACKGROUND</b>				
Objectives	2	Provide an explicit statement of the main objective(s) or question(s) the review addresses.	Page 2/line 32	Abstract/Background
<b>METHODS</b>				
Eligibility criteria	3	Specify the inclusion and exclusion criteria for the review.	Page 2/line 35	Abstract/Method
Information sources	4	Specify the information sources (e.g. databases, registers) used to identify studies and the date when each was last searched.	Page 2/line 35	Abstract/Method
Risk of bias	5	Specify the methods used to assess risk of bias in the included studies.	Not reported in abstract	Not reported in abstract
Synthesis of results	6	Specify the methods used to present and synthesize results.	Not reported in abstract	Not reported in abstract
<b>RESULTS</b>				
Included studies	7	Give the total number of included studies and participants and summarise relevant characteristics of studies.	Page 2/line 37	Abstract/Results
Synthesis of results	8	Present results for main outcomes, preferably indicating the number of included studies and participants for each. If meta-analysis was done, report the summary estimate and confidence/credible interval. If comparing groups, indicate the direction of the effect (i.e. which group is favoured).	Page 2/line 38	Abstract/Results
<b>DISCUSSION</b>				
Limitations of evidence	9	Provide a brief summary of the limitations of the evidence included in the review (e.g. study risk of bias, inconsistency and imprecision).	Not reported in abstract	Not reported in abstract
Interpretation	10	Provide a general interpretation of the results and important implications.	Page 2/line 37	Abstract/Result
<b>OTHER</b>				
Funding	11	Specify the primary source of funding for the review.	Not reported in abstract	Not reported in abstract
Registration	12	Provide the register name and registration number.	Not reported in abstract	FNot reported in abstract
