

## Data Sharing Statement

<b>Article Info</b>	http://dx.doi.org/10.21037/jss-20-645.	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	All deidentified individual participant data collected during the trial
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol, statistical analysis plan, clinical study report will be shared if requested
5	When will data availability begin?	From the publication date
6	When will data availability end?	Two years within the publication date, recognizing that materials and technique may continue to evolve and data may be updated over time
7	To whom will you share the data?	Orthopaedic surgeons, general neurosurgeons, subspecialty spine surgeons or other physicians or biomedical researchers with interest in bioglass and relevance to bone healing or further index effects
8	For what type of analysis or purpose?	For analysis in evaluating the safety and objective effectiveness of bioglass in spine and other surgical applications
9	How or where can the data/documents be obtained?	Via email upon request erikwesterlund@gmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared accordingly
