

Data Sharing Statement		
Article Info	https://dx.doi.org/10.21037/jss-22-28	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The intraoperative blood loss, cost data, and time per screw data will be available on request.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, as technique or survival data may be updated over time.
7	To whom will you share the data?	Spine surgeons operating on adolescent idiopathic scoliosis patients interested in 3D printing.
8	For what type of analysis or purpose?	For analysis of the use of 3D printing in operative spine management.
9	How or where can the data/documents be obtained?	Email requests should be sent to: Dominick.Tuason@yale.edu
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
