

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jgo-20-210	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Clinical data can be shared. Some experimental results of the cell lines can also be shared. Hope these help others to further research.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, ethics committee certificates, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and bowel surgeons interested in scientific research.
8	For what type of analysis or purpose?	To analyze that this gene increases the resistance to radiotherapy of colorectal cancer cells
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zhiyunqing1989@gmail.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
