

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jgo-21-14	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The primary raw data of the results, especially the short-term follow-up indexes at 3 months after the operation included tubular gastric diameter and the incidence of poor tubular gastric positioning and anastomotic stenosis, will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Available upon reasonable request from medical oncologists and thoracic surgeon who are interested in this modified McKeown-MIE.
8	For what type of analysis or purpose?	For analysis to evaluate the efficacy of the azygos arch-sparing McKeown-MIE.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: wanlilin2020@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
