

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jgo-20-479	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data, serum calcium, PLR of our cohort will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	We are willing to share our study protocol, statistical analysis plan, informed consent form, analytic code.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Surgeons, physicians and investigators who are interested in studies of calcium or systemic inflammation marker that are related to our research.
8	For what type of analysis or purpose?	For analysis of the importance of calcium or systemic inflammation marker (especially platelet-to-lymphocyte ratio) in colorectal cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: yuhch5@mail.sysu.edu.cn luoyx25@mail.sysu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
