

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jgo-21-186	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes. The data that support the findings of this study are available from the corresponding author upon reasonable request.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data and safety data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and general surgeons who are interested in studies.
8	For what type of analysis or purpose?	For cross-trial analysis to evaluate the safety of treatment regimen including apatinib plus S1 in gastric cancer patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: dengweiwei@126.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
