

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jgo-21-323	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, upon request.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Lymphocyte counts, neutrophil counts, and survival/recurrence data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Documentation of institutional review-board approval may be shared upon request. Otherwise, all study-related information is already included in the manuscript.
5	When will data availability begin?	From publication date.
6	When will data availability end?	Two years within the publication date.
7	To whom will you share the data?	Radiation and medical oncologists interested in definitive chemoradiation for anal cancer.
8	For what type of analysis or purpose?	For analysis focused on the prognostic impact of hematologic parameters during treatment.
9	How or where can the data/documents be obtained?	Emails can be sent to the corresponding author to obtain the shared data: ebholliday@mdanderson.org
10	Any other restrictions?	A detailed analysis plan must accompany each request for data. We reserve the right to appraise the potential risks and benefits for each request before providing data.
