

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jgo-21-536">https://dx.doi.org/10.21037/jgo-21-536</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Relationship between c-MET level and clinicopathological features in patients with CRC
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	To who interested in the relationship between c-MET expression and the clinicopathological characteristics of CRC.
8	For what type of analysis or purpose?	For related experiments.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: laixr2003@163.com and doc madong@yeah.net.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
