

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jgo-21-715">https://dx.doi.org/10.21037/jgo-21-715</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data of tumoricidal efficacy of TILs in particular will be shared, we found a model to evaluate the tumoricidal outcomes of paired TIL and PBL from patients by utilization of HCC tumoroid, which has seldom been provided in previous studies.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Medical oncologists and HCC surgeons who are interested in studies of HCC tumoroid and adoptive cell transfer.
8	For what type of analysis or purpose?	For analysis to evaluate tumoricidal efficacy of adoptive cell transfer in HCC.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: hongy@bjmu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
