

## TRIPOD Checklist: Prediction Model Development

Section	Item	Checklist description	Reported on Page Number/Line Number	Reported on Section/Paragraph
<b>Title and abstract</b>				
Title	1	Identify the study as developing and/or validating a multivariable prediction model, the target population, and the outcome to be predicted.	Page1/Line3-4	1Section/Paragraph1
Abstract	2	Provide a summary of objectives, study design, setting, participants, sample size, predictors, outcome, statistical analysis, results, and conclusions.	Page2/Line36-66	1Section/Paragraph5
<b>Introduction</b>				
Background and objectives	3a	Explain the medical context (including whether diagnostic or prognostic) and rationale for developing or validating the multivariable prediction model, including references to existing models.	Page3/Line70-89	1Section/Paragraph1-2
	3b	Specify the objectives, including whether the study describes the development or validation of the model or both.	Page3/Line90-97	1Section/Paragraph3
<b>Methods</b>				
Source of data	4a	Describe the study design or source of data (e.g., randomized trial, cohort, or registry data), separately for the development and validation data sets, if applicable.	Page4/Line101-112	1Section/Paragraph1
	4b	Specify the key study dates, including start of accrual; end of accrual; and, if applicable, end of follow-up.	Page4/Line101-112	1Section/Paragraph1
Participants	5a	Specify key elements of the study setting (e.g., primary care, secondary care, general population) including number and location of centres.	Page4/Line114-131	1Section/Paragraph2-3
	5b	Describe eligibility criteria for participants.	Page4/Line101-112	1Section/Paragraph1
	5c	Give details of treatments received, if relevant.	Page4/Line101-112	1Section/Paragraph1
Outcome	6a	Clearly define the outcome that is predicted by the prediction model, including how and when assessed.	Page4-6/Line133-178	4Section/Paragraph4
	6b	Report any actions to blind assessment of the outcome to be predicted.	Page5/Line170-178	1Section/Paragraph1
Predictors	7a	Clearly define all predictors used in developing or validating the multivariable prediction model, including how and when they were measured.	Page4/Line114-131	2Section/Paragraph2
	7b	Report any actions to blind assessment of predictors for the outcome and other predictors.	Page5/Line170-178	1Section/Paragraph1
Sample size	8	Explain how the study size was arrived at.	Page5/Line140-158	1Section/Paragraph1

Missing data	9	Describe how missing data were handled (e.g., complete-case analysis, single imputation, multiple imputation) with details of any imputation method.	Page4/Line101-112	1Section/Paragraph1
Statistical analysis methods	10a	Describe how predictors were handled in the analyses.	Page6/Line180-188	1Section/Paragraph1
	10b	Specify type of model, all model-building procedures (including any predictor selection), and method for internal validation.	Page6/Line180-188	1Section/Paragraph1
	10d	Specify all measures used to assess model performance and, if relevant, to compare multiple models.	Page6/Line180-188	1Section/Paragraph1
Risk groups	11	Provide details on how risk groups were created, if done.	Page5/Line140-158	1Section/Paragraph2
<b>Results</b>				
Participants	13a	Describe the flow of participants through the study, including the number of participants with and without the outcome and, if applicable, a summary of the follow-up time. A diagram may be helpful.	Page6/Line192-199	1Section/Paragraph1
	13b	Describe the characteristics of the participants (basic demographics, clinical features, available predictors), including the number of participants with missing data for predictors and outcome.	Page6/Line192-199	1Section/Paragraph1
Model development	14a	Specify the number of participants and outcome events in each analysis.	Page7/Line212-233	1Section/Paragraph1
	14b	If done, report the unadjusted association between each candidate predictor and outcome.	Page7/Line212-233	1Section/Paragraph1
Model specification	15a	Present the full prediction model to allow predictions for individuals (i.e., all regression coefficients, and model intercept or baseline survival at a given time point).	Page7-8/Line201-255	1Section/Paragraph4
	15b	Explain how to use the prediction model.	Page8/Line257-264	1Section/Paragraph1
Model performance	16	Report performance measures (with CIs) for the prediction model.	Page8/Line257-264	1Section/Paragraph1
<b>Discussion</b>				
Limitations	18	Discuss any limitations of the study (such as nonrepresentative sample, few events per predictor, missing data).	Page11/Line347-356	1Section/Paragraph1
Interpretation	19b	Give an overall interpretation of the results, considering objectives, limitations, and results from similar studies, and other relevant evidence.	Page8-11/Line266-346	1Section/Paragraph6
Implications	20	Discuss the potential clinical use of the model and implications for future research.	Page11/Line360-367	1Section/Paragraph1
<b>Other information</b>				
Supplementary information	21	Provide information about the availability of supplementary resources, such as study protocol, Web calculator, and data sets.	-	-
Funding	22	Give the source of funding and the role of the funders for the present study.	Page12/Line369-375	1Section/Paragraph1
