

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/jgo-21-868	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	--
3	What data in particular will be shared?	Recurrence and overall survival data will be shared as requested
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and analytic code may be shared upon reasonable request
5	When will data availability begin?	At time of publication date
6	When will data availability end?	Within 12 months of publication; after which time recurrence and survival outcomes may be out of date
7	To whom will you share the data?	Medical and surgical oncologists or epidemiologists (MD or PhD) interested in biliary tract cancers
8	For what type of analysis or purpose?	For combination of data for robust analysis
9	How or where can the data/documents be obtained?	Contact corresponding author to discuss data sharing – Andrew.sinnamon@moffitt.org
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
