

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jgo-22-508">https://dx.doi.org/10.21037/jgo-22-508</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place “-” if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The data in clinical characteristics, lymph node dissection and gastrectomy will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Gastrointestinal surgeons who are interested in laparoscopic radical gastrectomy combined with indocyanine green tracer fluorescence technique.
8	For what type of analysis or purpose?	For analysis to evaluate safety and availability of lymph node dissection and precise gastrectomy for gastric cancer patients undergoing radical resection under laparoscope with ICG.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: shibosun8@hrbmu.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
