

Data Sharing Statement		
Article Info	https://dx.doi.org/10.21037/jgo-21-863	
Item	Question	Authors' Response (place “-” if not applicable)
1	Would you like to share data collected for your study to others?	No.
2	If not, would you like to share the reason for your decision?	The manuscript describes an observational, post-marketing surveillance study using data collected as part of routine clinical practice in Japan. The study was conducted in compliance with the Japanese “Good Post-marketing Study Practice” (GPSP Ordinance). As patients were receiving their usual medical care, informed consent was not required, in accordance with the Ordinance. The patients did not provide consent for patient-level data to be shared.
3	What data in particular will be shared?	-
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	-
6	When will data availability end?	-
7	To whom will you share the data?	-
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	-
10	Any other restrictions?	-
