

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jgo-22-928	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	We are willing to share raw data from of western blot, apoptosis assay and flow cytology experiments
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical methods have been introduced in experimental methods, other aspects are not covered in our experiments, and corresponding authors can be contacted by email if needed
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Medical oncologists and gastroenterologists interested in our research
8	For what type of analysis or purpose?	For further research on the treatment of gastric cancer
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: zhuyuanmin@asch.net.cn
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
