

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jgo-22-1273">https://dx.doi.org/10.21037/jgo-22-1273</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Data containing patient information cannot be provided according to the hospital and national policies, but if necessary, data with hidden patient identity information can be provided with the consent of the hospital.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	If the policy allows, we can provide basic data of patients and perioperative data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Medical oncologists and thoracic surgeons who are interested in studies of McKeown MIE.
8	For what type of analysis or purpose?	For analysis to evaluate the safety of novel methods in McKeown MIE
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 3100102531@zju.edu.cn
10	Any other restrictions?	We may balance the potential benefits and risks of each request, and provide data that can be shared if allowed by hospital policy.
