

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jgo-23-76">https://dx.doi.org/10.21037/jgo-23-76</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data in particular will be shared; the measurement of portal hemodynamics (including WHVP, FHVP, HVPG, etc.) are the most important findings will also be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and study protocol will also be shared if requested
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Doctors and investigators who are interested in the effects of TACE to portal hemodynamics.
8	For what type of analysis or purpose?	For analysis to investigate the effects of TACE on hepatic hemodynamics measured by HVPG in patients with unresectable HCC.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: <a href="mailto:wangtao19810418@163.com">wangtao19810418@163.com</a>
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
