

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jgo-22-858	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Patient characteristics and vascular response will be shared, which has seldom been provided in previous studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis and image data will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and hepatologist who are interested in studies of hepatoma treatment.
8	For what type of analysis or purpose?	For analysis to evaluate the efficacy and safety of immunotherapy or hepatic arterial infusion chemotherapy in HCC patients.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: Telomere-aging@hotmail.com.tw
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
