

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jgo-23-166	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Basic information about the patients and the occurrence of complications in both groups will be shared.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years within the publication date, as iterations of technology may not match current data.
7	To whom will you share the data?	Thoracic surgeons and other surgeons involved in esophageal surgery who may be interested.
8	For what type of analysis or purpose?	Clinical analysis of tubular stapler-assisted nested anastomosis in the prevention of postoperative esophageal cancer complications.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: maminjie24@sina.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
