

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jgo-23-304	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The gene expression data in colon cancer tissues downloaded from TCGA database, pathological information of all patients in clinical trials (age, gender, pathology type, differentiation, depth of tumor invasion, lymph node metastasis, vascular metastasis, TNM stages) and all original pictures of cell function experiments and WB strips in this study.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol, statistical analysis plan and related code for biological information analysis will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Medical oncologists and gastrointestinal surgeons who are interested in the studies of colon cancer.
8	For what type of analysis or purpose?	For analysis to research the regulatory mechanism of CLEC5A in colon cancer malignant progress.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: 18375349219@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
