

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jgo-24-9	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Captured images (not physical slides) of PD-L1 immunostain and routine histology can be provided upon request.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol will also be shared if requested. Note that most of the primary data of each patient is available in Table 2.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique may be updated over time.
7	To whom will you share the data?	Pathologists, medical oncologists and pancreaticobiliary surgeons who are interested in immunohistochemistry of PD-L1.
8	For what type of analysis or purpose?	For analysis to evaluate the expression status of PD-L1 in pancreaticobiliary carcinoma particularly in adenosquamous carcinoma.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: sasatomi@ohsu.edu
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
