

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jgo-24-330	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes, if requested.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Renal function and survival data.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Clinical and statistical data will be shared, if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date, since the survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and surgeons who are interested in chemotherapy for BTC.
8	For what type of analysis or purpose?	For analysis to evaluate the relationship between effectiveness of chemotherapy for BTC and nephrotoxicity.
9	How or where can the data/documents be obtained?	Emails could be sent to the corresponding author.
10	Any other restrictions?	We may consider the balance of the potential benefits and risks for each request, and then provide the data that could be shared.
