

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jtd-20-2436.	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	
3	What data in particular will be shared?	We would like to share that patients younger than 30 years of age is a significant factor for postoperative recurrence in patients with primary spontaneous pneumothorax. We also found that recurrence was not related to the surgical method or surgeons using ITPW methods.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	No
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Thoracic surgeons who are interested especially in spontaneous pneumothorax
8	For what type of analysis or purpose?	For analysis to evaluate recurrence of spontaneous pneumothorax
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: taiki_ni_kiita@nifty.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
