

Data Sharing Statement

Article Info	http://dx.doi.org/10.21037/jtd-20-2692 .	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The excel form of raw data including the patients medical record number, the major adverse events, and the parameter of glucose variability (the mean 24-hour glucose, standard deviation, coefficient of variation (CV) and mean amplitude of glycemic excursions)
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	A protocol of "First Affiliated Hospital of Sun Yat-sen University Cardiovascular Surgical Intensive Care Unit Blood Glucose Monitoring and Control Protocol" has been attached as supplementary material (Appendix 1).
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Any researcher/reader in interested in the present study
8	For what type of analysis or purpose?	Meta-analysis or systemic review
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: infisdsums@163.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
