

## Data Sharing Statement

<b>Article Info</b>	<a href="http://dx.doi.org/10.21037/jtd-20-2659">http://dx.doi.org/10.21037/jtd-20-2659</a> .	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Data is available from the corresponding author upon reasonable request.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	De-identified outcomes data can be considered for sharing.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Further sharing of the statistical analysis plan and analytic code is available from the corresponding authors upon reasonable request.
5	When will data availability begin?	Data availability will begin if the paper is accepted for publication.
6	When will data availability end?	The data will remain available to share for five years after an acceptance of the paper if the paper is accepted for publication.
7	To whom will you share the data?	Data can be shared with other investigators considering similar clinical questions, especially treatment of central lung NSCLC with SBRT.
8	For what type of analysis or purpose?	As per above, this data would be most useful to investigators seeking to develop a meta-analysis of outcomes or predictive and prognostic factors for central lung SBRT.
9	How or where can the data/documents be obtained?	Please contact the corresponding author directly to determine how best to obtain data for sharing.
10	Any other restrictions?	N/A
