

## Data Sharing Statement

<b>Article Info</b>	https://dx.doi.org/10.21037/jtd-21-1138	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Patient's characteristics and the safety/ efficacy endpoints data will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date
6	When will data availability end?	Two years within the publication date, since the efficacy endpoint may be updated over time.
7	To whom will you share the data?	Surgeons or cardiologists who are interested in studies of left atrium appendage excision.
8	For what type of analysis or purpose?	For analysis to evaluate the safety and efficacy of left atrium appendage excision using vascular staplers.
9	How or where can the data/documents be obtained?	Email can be sent to the address below: <a href="mailto:scalpel@hanmail.net">scalpel@hanmail.net</a>
10	Any other restrictions?	Data can be shared depending on requests. Detailed requests would be helpful for us to decide whether or not to share data.
