

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-21-681	
Item	Question	Authors' Response (place “-” if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data in particular will be shared, and we also found the association between incomplete revascularization of CTO lesions and postoperative mortalities and MACCE
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Any other documents will be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	One year within the publication date, since the survival date may be updated over time.
7	To whom will you share the data?	Cardiovascular surgeons who are interested in studies of CTO revascularization
8	For what type of analysis or purpose?	For analysis to evaluate the impact of CTO revascularization in patients undergoing CABG
9	How or where can the data/ documents be obtained?	Emails could be sent to the address below to obtain the shared data: millalim92@gmail.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data could be shared.
