

## Narrative Review Checklist

| Section/Topic             | Item No | Item   | Reported on Page Number/Line Number | Reported on Section/Paragraph |
|---------------------------|---------|--|-------------------------------------|-------------------------------|
| <b>TITLE</b>              |         |  |                                     |                               |
| Title                     | 1       | Identify the report as a Narrative Review or Literature Review.  |                                     |                               |
| <b>ABSTRACT</b>           |         |  |                                     |                               |
| Structured summary        | 2       | Provide a structured summary with the subsections as: objective, background, methods, conclusion (1).  |                                     |                               |
| <b>INTRODUCTION</b>       |         |  |                                     |                               |
| Rationale/background      | 3       | Describe the rationale for the review in the context of what is already known.   |                                     |                               |
| Objectives                | 4       | Specify the key question(s) identified for the review topic.   |                                     |                               |
| <b>METHODS</b>            |         |  |                                     |                               |
| Research selection        | 5       | Specify the process for identifying the literature search (eg, years considered, language, publication status, study design, and databases of coverage).   |                                     |                               |
| <b>DISCUSSION/SUMMARY</b> |         |  |                                     |                               |
| Narrative                 | 6       | Discuss: 1) research reviewed including fundamental or key findings, 2) limitations and/or quality of research reviewed, and 3) need for future research.  |                                     |                               |
| Summary                   | 7       | Provide an overall interpretation of the narrative review in the context of clinical practice and/or the Nutrition Care Process for registered dietitian nutritionists, clinical practice for other health professionals, policy development and implementation, or future research. |                                     |                               |
