

TRIPOD Checklist: Prediction Model Development

Section	Item	Checklist description	Reported on Page Number/Line Number	Reported on Section/Paragraph
Title and abstract				
Title	1	Identify the study as developing and/or validating a multivariable prediction model, the target population, and the outcome to be predicted.	Page 1/L line 1	Title
Abstract	2	Provide a summary of objectives, study design, setting, participants, sample size, predictors, outcome, statistical analysis, results, and conclusions.	Page 2/L line 5	Abstract
Introduction				
Background and objectives	3a	Explain the medical context (including whether diagnostic or prognostic) and rationale for developing or validating the multivariable prediction model, including references to existing models.	Page 3/L line 13	Introduction/Paragraph 1-2
	3b	Specify the objectives, including whether the study describes the development or validation of the model or both.	Page 4/L line 20	Introduction/Paragraph 3
Methods				
Source of data	4a	Describe the study design or source of data (e.g., randomized trial, cohort, or registry data), separately for the development and validation data sets, if applicable.	Page 5/L line 9	Methods/Paragraph 1
	4b	Specify the key study dates, including start of accrual; end of accrual; and, if applicable, end of follow-up.	Page 5/L line 9	Methods/Paragraph 1
Participants	5a	Specify key elements of the study setting (e.g., primary care, secondary care, general population) including number and location of centres.	Page 5/L line 16	Methods/Paragraph 2
	5b	Describe eligibility criteria for participants.	Page 5/L line 16	Methods/Paragraph 2
	5c	Give details of treatments received, if relevant.	Page 5/L line 16	Methods/Paragraph 2
Outcome	6a	Clearly define the outcome that is predicted by the prediction model, including how and when assessed.	Page 6/L line 10	Methods/Paragraph 3
	6b	Report any actions to blind assessment of the outcome to be predicted.	N/A	N/A
Predictors	7a	Clearly define all predictors used in developing or validating the multivariable prediction model, including how and when they were measured.	Page 6/L line 2	Methods/Paragraph 2
	7b	Report any actions to blind assessment of predictors for the outcome and other predictors.	N/A	N/A
Sample size	8	Explain how the study size was arrived at.	Page 5/L line 17	Methods/Paragraph 2

Missing data	9	Describe how missing data were handled (e.g., complete-case analysis, single imputation, multiple imputation) with details of any imputation method.	Page 5/Line 21	Methods/Paragraph 2
Statistical analysis methods	10a	Describe how predictors were handled in the analyses.	Page 6/Line 10	Methods/Paragraph 3
	10b	Specify type of model, all model-building procedures (including any predictor selection), and method for internal validation.	Page 6/Line 10	Methods/Paragraph 3
	10d	Specify all measures used to assess model performance and, if relevant, to compare multiple models.	Page 6/Line 17	Methods/Paragraph 3
Risk groups	11	Provide details on how risk groups were created, if done.	Page 6/Line 10	Methods/Paragraph 3
Results				
Participants	13a	Describe the flow of participants through the study, including the number of participants with and without the outcome and, if applicable, a summary of the follow-up time. A diagram may be helpful.	Page 7/Line 4	Results/Paragraph 1
	13b	Describe the characteristics of the participants (basic demographics, clinical features, available predictors), including the number of participants with missing data for predictors and outcome.	Page 7/Line 5	Results/Paragraph 1
Model development	14a	Specify the number of participants and outcome events in each analysis.	Page 7/Line 16	Results/Paragraph 2
	14b	If done, report the unadjusted association between each candidate predictor and outcome.	Page 8/Line 1	Results/Paragraph 2-3
	15a	Present the full prediction model to allow predictions for individuals (i.e., all regression coefficients, and model intercept or baseline survival at a given time point).	Page 9/Line 3	Results/Paragraph 4
	15b	Explain how to use the prediction model.	Page 9/Line 3	Results/Paragraph 4
Model performance	16	Report performance measures (with CIs) for the prediction model.	Page 9/Line 6	Results/Paragraph 4
Discussion				
Limitations	18	Discuss any limitations of the study (such as nonrepresentative sample, few events per predictor, missing data).	Page 13/Line 21	Discussion/Paragraph 8
Interpretation	19b	Give an overall interpretation of the results, considering objectives, limitations, and results from similar studies, and other relevant evidence.	Page 9/Line 12	Discussion/Paragraph 1-6
Implications	20	Discuss the potential clinical use of the model and implications for future research.	Page 13/Line 8	Discussion/Paragraph 7
Other information				
Supplementary information	21	Provide information about the availability of supplementary resources, such as study protocol, Web calculator, and data sets.	N/A	N/A
Funding	22	Give the source of funding and the role of the funders for the present study.	N/A	N/A
