

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-21-1242	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	
3	What data in particular will be shared?	In particular, the data for blood clot administration volume and postoperative hemodynamic and biochemical measurements will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Protocol for blood clot creation and injection has been shared as a figure.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or procedure may be updated over time.
7	To whom will you share the data?	Thoracic surgeons or pulmonologists interested in utilizing autologous blood PE pig model.
8	For what type of analysis or purpose?	To use the autologous blood PE pig model for any experiment, study and transrational research. The data can also help provide instructional support in how to create the autologous blood PE pig model.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: kazuhiko.yasufuku@uhn.ca
10	Any other restrictions?	No.
