

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-21-1418	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes. Anonymized data is available from the corresponding author upon reasonable request. Sharing the data will require additional ethical and institutional approval.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Background data and serum cytokine levels of individuals
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	None
5	When will data availability begin?	From the publication date
6	When will data availability end?	Two years after the data availability begin.
7	To whom will you share the data?	Respiratory physicians interested in IPF
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	E-mail should be sent to the Corresponding author.
10	Any other restrictions?	We might decline offer, if the offer competes with our future research plan.
