

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jtd-21-1284">https://dx.doi.org/10.21037/jtd-21-1284</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The raw sequencing data from meta-transcriptomics experiment will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan, informed consent form, and clinical study report will also be shared if requested.
5	When will data availability begin?	The data will be available from the day of publication.
6	When will data availability end?	There is no time limit
7	To whom will you share the data?	Doctors and researchers who are interested in studies of co-infection.
8	For what type of analysis or purpose?	For analysis of infectome or microbiome in COVID-19 patients.
9	How or where can the data/documents be obtained?	All non-human reads were deposited in the SRA databases under the Sequence Read Archive (SRA) submission: SUB8556497.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
