

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jtd-21-1485">https://dx.doi.org/10.21037/jtd-21-1485</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The types and classification basis of pseudoaneurysm in the Chronic Pulmonary Inflammatory Cavity mentioned in the manuscript in particular will be shared, which has seldom been provided in previous studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Study protocol and statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Respiratory and interventional imaging physicians and researchers in related fields who are interested in studies of pulmonary blood vessels.
8	For what type of analysis or purpose?	For analysis to evaluate the efficacy of embolization in patients with CPIC.
9	How or where can the data/documents be obtained?	E-mails could be sent to the address below to obtain the shared data: zhaozhuxiang@126.com.
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
