

## Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jtd-22-300">https://dx.doi.org/10.21037/jtd-22-300</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data will be shared in an Excel spreadsheet format without patient identifying information. The data for each patient that is reported in the results section is outlined in the tables provided in the manuscript. These values were used to generate the results reported.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	N/A
5	When will data availability begin?	From publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	For medical providers interested in lung transplant management.
8	For what type of analysis or purpose?	For analysis of outcomes following lung transplantation.
9	How or where can the data/documents be obtained?	Emails can be sent to the address below to obtain the shared data: navar@wustl.edu
10	Any other restrictions?	We may balance the potential benefits and risks of each request and then provide the data that could be shared.
