

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-22-1363	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data and pretreatment D-dimer value in particular will be shared, and we also provide data of patients' clinical characteristics including age, sex, smoking history, histological type, ECOG PS, lines of treatment, ICI drugs, treatment type, brain metastasis.
4	Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Statistical analysis plan and clinical study report will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival data may be updated over time.
7	To whom will you share the data?	Medical oncologists and related researchers who are interested in studies of this field.
8	For what type of analysis or purpose?	For analysis to evaluate the prognostic value of plasma D-dimer levels in advanced non-small cell lung cancer patients treated with immune checkpoint inhibitors.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: enenbai@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
