

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-22-1092	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The effectiveness data of percutaneous aortic anastomosis leak (AAL) closure after frozen elephant trunk procedure (FET) procedure. The details of the procedural technique have seldom been reported in other studies.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	The study protocol, statistical analysis plan will also be shared if requested.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Two years within the publication date, since the technique or survival date may be updated over time.
7	To whom will you share the data?	Cardiologists, cardiac surgeons and interventionist who are interest in our study.
8	For what type of analysis or purpose?	For analysis to evaluate the safety and effectiveness in patients with AAL after aortic surgery.
9	How or where can the data/documents be obtained?	Emails could be sent to the address below to obtain the shared data: Junzhoupu@163.com
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
