

Data Sharing Statement

Article Info	https://dx.doi.org/10.21037/jtd-22-654	
Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	Yes
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	The survival data will be shared as well as information about recurrence and complications.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Data about how statistics were performed as well as operative technique will be shared if requested.
5	When will data availability begin?	From date of publication.
6	When will data availability end?	Two years from publication date because the technique may change and we plan to update our data overtime as more sleeve lobectomies are performed with a VATS technique.
7	To whom will you share the data?	Thoracic surgeons and trainees interested in VATS techniques.
8	For what type of analysis or purpose?	For study and adoption of VATS surgical techniques or study of NSCLC treatment.
9	How or where can the data/documents be obtained?	Emails can be sent to: Anthony.Picone@Roswellpark.org
10	Any other restrictions?	We may balance the potential benefits and risks for each request and then provide the data that could be shared.
