

Data Sharing Statement

| | | |
|---------------------|---|---|
| Article Info | https://dx.doi.org/10.21037/jtd-22-1288 | |
| Item | Question | Authors' Response (place "-" if not applicable) |
| 1 | Would you like to share data collected for your study to others? | Yes. |
| 2 | If not, would you like to share the reason for your decision? | - |
| 3 | What data in particular will be shared? | The inflammatory and clinical characteristics data in particular will be shared, and we also found the sequence of bronchiectasis onset indicating distinct inflammatory characteristics and the results might be helpful in targeted therapy for patients with asthma. |
| 4 | Any other documents will be shared? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code. | Study protocol, statistical analysis plan, informed consent form, and clinical study report will also be shared if requested |
| 5 | When will data availability begin? | From the publication date. |
| 6 | When will data availability end? | Two years within the publication date. |
| 7 | To whom will you share the data? | Respiratory physicians, allergists, and otolaryngologists who are interested in studies of asthma. |
| 8 | For what type of analysis or purpose? | For analysis to evaluate inflammatory characteristics and targeted therapy for patients with asthma |
| 9 | How or where can the data/documents be obtained? | Emails could be sent to the address below to obtain the shared data: hysheng07@126.com |
| 10 | Any other restrictions? | We may balance the potential benefits and risks for each request and then provide the data that could be shared. |
