Item	Question	Authors' Response (place "-" if not applicable)
1	Would you like to share data collected for your study to others?	No.
2	If not, would you like to share the reason for your decision?	I totally agree with the journal's policies on sharing of research data and materials. However, our IRB requests us to get the consent for the secondary use of data from participants, if we have a plan to share our data, and we got the consent only for the primary use. Many participants enrolled in the current study are lost for follow-up and it is almost impossible to get re-consents for the secondary use of data from all.
3	What data in particular will be shared?	-
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	-
5	When will data availability begin?	-
6	When will data availability end?	-
7	To whom will you share the data?	-
8	For what type of analysis or purpose?	-
9	How or where can the data/documents be obtained?	-
10	Any other restrictions?	-
