

### Data Sharing Statement

<b>Article Info</b>	<a href="https://dx.doi.org/10.21037/jtd-23-83">https://dx.doi.org/10.21037/jtd-23-83</a>	
<b>Item</b>	<b>Question</b>	<b>Authors' Response (place "-" if not applicable)</b>
1	Would you like to share data collected for your study to others?	Yes, per request.
2	If not, would you like to share the reason for your decision?	-
3	What data in particular will be shared?	Deidentified, coded database/statistical worksheet of the cohort analyzed in the study will be shared.
4	Any other documents will be share? Such as study protocol, statistical analysis plan, informed consent form, clinical study report, analytic code.	Any of the following will be shared per individual request: study plan/synopsis; raw data extraction form.
5	When will data availability begin?	From the publication date.
6	When will data availability end?	Three years from publication date. It is our institutional policy to store data up to three years for a given study.
7	To whom will you share the data?	Pulmonologists and infectious disease physicians who are interested in advanced bronchoscopic techniques and the diagnosis of respiratory infections.
8	For what type of analysis or purpose?	Multicenter assessments of bronchoscopic applications for non-malignant disease such as infections.
9	How or where can the data/documents be obtained?	This can be arranged between relevant parties after appropriate communication; introductory request can be emailed of the corresponding author of the study: <a href="mailto:achrissian@llu.edu">achrissian@llu.edu</a>
10	Any other restrictions?	Each request will be evaluated individually. Depending on the request, we will balance any risks of sharing with benefit.
